MEGATHREAD | Content Nuke - Where to Watch & Discussion

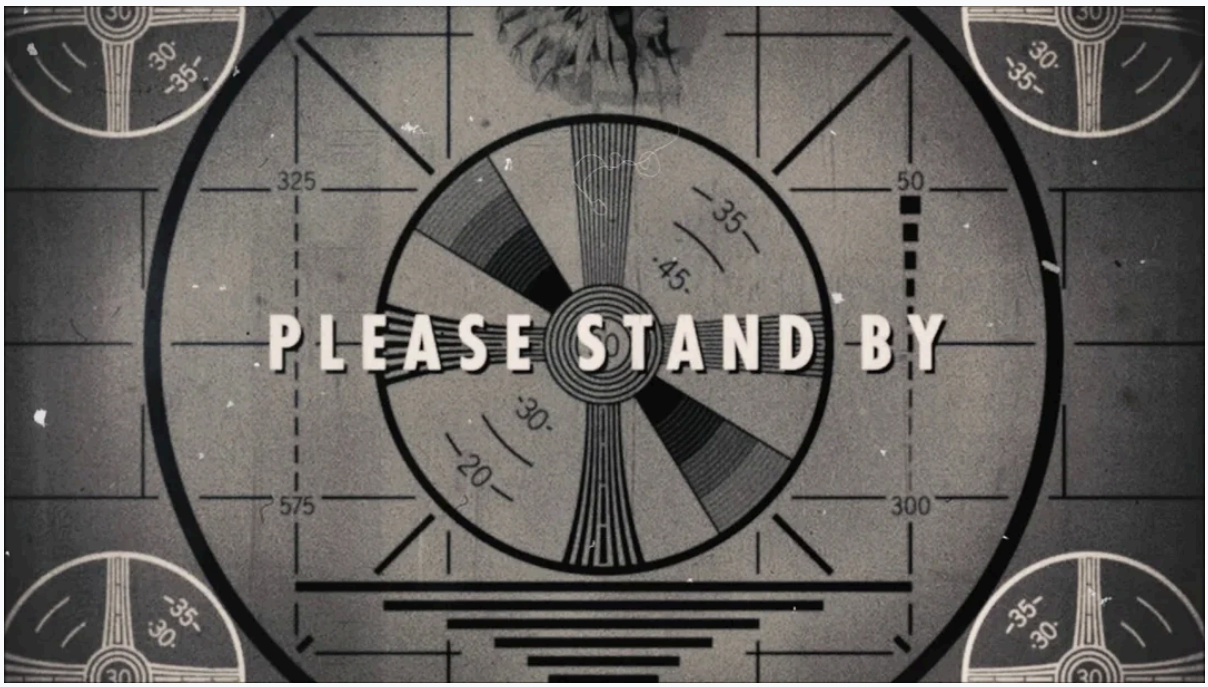
Megathread

Hey everyone, we've seen a lot of comments about wanting to watch the nuke without showing support for H3. Several creators have mentioned they're planning to stream their reactions or post reaction videos in the coming days.

Here's a list of creators who've supported our sub, either by engaging with us directly or citing our posts in their own critiques of H3. If you're planning to watch along with any of them, we ask that you carry our sub's rules into those spaces too. Feel free to check out:

- North Star Radio/Comrade Casey (Twitch) | Link
- Frogan (Twitch) | Link
- SeanDaBlack (Twitch) | Link
- Denims (Twitch) | Link
- Central Committee/Mike from PA (Twitch) | Link
- Hallucinogender0g (Twitch) | Link
- Kaceytron (Twitch) | Link
- Do Not Worry Podcast (YouTube) | Link
- Uninformed Leftist (YouTube) | Link

Happy snarking from your respective bunkers! Please feel free to share links to other streams/creators and react yourselves down below!



EDIT: Apparently it's not happening tonight! Over one single frame in the whole manifesto video! One frame, y'all, that's it! And then it's perfect! Ugh so frustrating that ONE FRAME prevented all this!

It's almost like the hype for this nuke has been nothing more than a crummy commercial to hook people into watching a dying podcast! So strange!!

We'll keep this thread up — feel free to react/comment/update here!

the real nuke was hasan getting his brows waxed on stream

This is such ridiculous bullshit 😂 Such a weaselly little liar 😜 Guys you'll never believe it, I have to remove or blur 1 frame, its 17.00 now, guess I'll upload it tomorrow morning or something for some reason. YouTube editor? Nahhh you don't get it bro 🤪 Such a frikkin loser. The lack of him not getting how he looks right now is astounding

The paying members are actually super upset at the lack of shows and he misses one more show for this? That's pathetic

Imagine if it's a 2 hour loop of Rick Astley...

32 Reply Share ...

Hasan freaking out about his eyebrows being waxed right now probably way more entertaining than whatever the "nuke" was gonna be.

hahahahaha he uploaded an insta story saying there is a single frame that he didn't blur and now he has to reupload

he even skipped the members show today to upload it

he said he's not even going to upload it tonight now and instead he's re-editing and uploading tmrw morning -- really? for a 1 frame edit?

color me shocked 🤯🤯

debate Sam Seder

He's being very selective of the timing he drops it. He knows streamers are more likely to go live this time of day and react to it, and those clips of them reacting will probably get more attention than the video itself

He's a COWARD

Future-Zucchini579 • 19h ago

Professional comedian can't upload one video right...

30 Reply Share ...

Separate_Ebb5076 • 19h ago

no shame in that I WOULD expect a professional YouTuber to be able to do that though---good thing he's a comedian I guess

He's lying, you can edit 1 frame out EASILY in Youtube Studio.

Has to be what's going on, bc yesterday he said he was going to do a huge YouTube premier for the launch of it. Like what Ethan? The one frame being left in today, changed that video release plan lmao
